

Genuine Drive Components from Wire Belt Company...

Keeping your lines running.

Get the advantage of ordering from the manufacturer you trust.

- Precision machined by Wire Belt to fit your exact belt.
- Manufactured to optimize your belt performance.
- Won't cause unnecessary wear & tear on your belt like generic sprockets can.
- Designed to increase belt life, saving you money!
- Available in stainless steel or polyacetal plastic.

Wire Belt Company of America, 154 Harvey Road, Londonderry, NH 03053

ISO 9001:14001 Registered Company

Flat-Flex®

- Available in various pitches and wire diameters for a variety of applications
- USDA accepted, easy to clean
- Non-slip positive driven belt design

Eye-Flex®

- Link belt for applications such as recycling and waste handling
- Available with ring separation for cooking, cooling and baking lines
- Cross flights, side guards and chains available for cooking and cooling

C-Cure Edge®

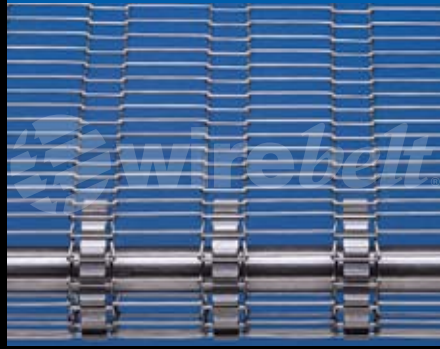

- Minimizes risk of accidents from sharp or burred open ends
- Eliminates belt snags and tangles
- Allows Flat-Flex® belt to run side-by-side without catching

CompactGrid™

- Lower belt mass increases efficiencies
- Open surface area makes the belt easy to clean and maintain
- Grid pattern offers optimal support for smaller, delicate products

Flat-Flex® XT®

- More "Z-bends" across the width of the belt increase strength and support
- Easy to clean in place design
- Rounded wire surface has no sharp surface that can damage product

EZSplice®

- Stronger, longer lasting belt joints
- Cuts replacement time and speeds repair
- For use with traditional Flat-Flex, Flat-Flex XT, and C-CureEdge belts

Specialty Belts

- Custom designed with flights and rows to keep product separated
- Perfect for moving product up steep inclines or down sharp declines
- Minimizes points of contact

Drive Components

- Sprockets and blanks engineered for optimal performance by Wire Belt to fit your specific belt
- High quality for increased belt life
- Available in stainless steel and polyacetal plastic for your application

CarrySmart® Conveyors

- Wide variety of conveyors available such as: straight, turn, spreading & converging, and shuttle conveyors
- Custom designed to accommodate your specific processing application
- Easy to clean and maintain
